A collaborative and interdisciplinary platform, the industrial design maestros at the Maiori Lab are behind some of the most celebrated outdoor furniture at present. Their design work is based on the search for emotion through simplicity and a preference on functionality over vanity.

The Maiori Lab expertise on sustainable design industrialization and engineering, and the relentless pursuit of innovation makes it one of the most sought-after design platforms, counting with collaborations with some of the most outstanding names and brands in the field.

Maiori Design
Designed For Happiness

The plasticity and light pose of Vega makes for an easy object to live with. Undemanding, elegant and carefree, Vega puts you at ease, so you can relax.

Vega’s contemporary flair and versatility makes it also a great choice for in-out dinner and café furniture.
There Is A Choice

All Vega frames and tabletops are made on recyclable aluminium and finished with a handsome layer of oven cured epoxy, the cleanest and environmentally friendly paint available known. A choice of Full Aluminium, Wicker, Batyline or padded Batyline choices is available for the seat and backrest, making Vega the one most comprehensive and customizable outdoor furniture option.
Effortless Performance

At first sight, Vega is light and graceful, but underneath the skin there is a heavy-duty object concealed which is purely engineered to perform and withstand even the most unforgiving conditions. Whatever the abuse, whatever the weather.
